*National Center for State Courts*

## Webinar: What are we learning about remote hearings?

April 14, 2022

Five leading experts distill recent NCSC research on remote hearings. Panelists draw on new studies—from analyzing judicial time in Texas, to considerations in child welfare cases, to judicially-led diversion programs—to summarize critical “aha!” moments about remote proceedings. The speakers draw together what NCSC is learning about where remote proceedings make sense, where challenges may exist, and what lessons can be drawn from the research to date.

Panelists:
